

*Quilting the Kaye Wood Way!*  
**Flying Geese—the easy Starmaker® way**  
 ©by Kaye Wood

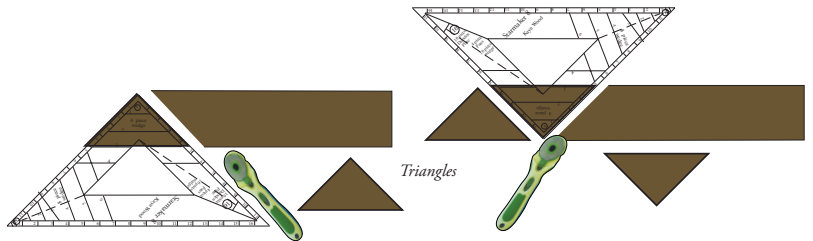

**A great class idea—teach this technique!**  
**Give a quick demo or have a hands-on sit-and-sew.**  
**Make any size; no wasted fabric; no complicated directions.**

1. Cut a dark and light strip the same width as the desired size of the Flying Geese unit.

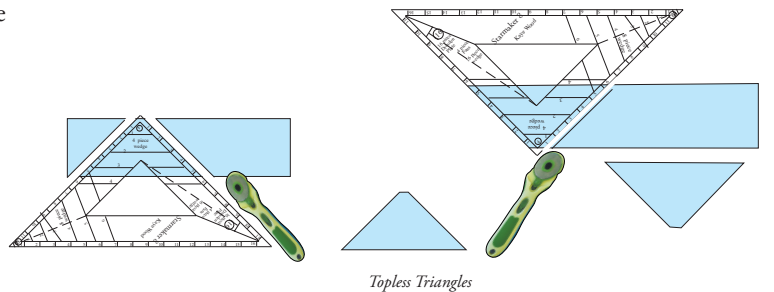

2. Cut a triangle from the dark strip by placing the point of the 4 angle of the Starmaker® 8 at the top of the strip.

To cut the second triangle, turn the Starmaker® 8 upside down with the point at the bottom of the strip.

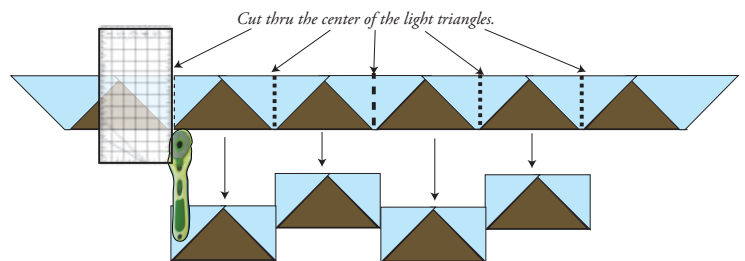

3. Cut a triangle from the light strip by placing the first line down from the point of the 4 angle of the Starmaker® 8 at the top of the strip. (These are called Topless Triangles because the top is cut off to make the triangle larger.)

To cut the second triangle, turn the Starmaker® 8 upside down, with the first line from the 4 angle at the bottom of the strip.

4. Sew a strip alternating light and dark triangles. Press the seam allowances away from the dark triangles.
5. Cut through the center of the light triangles to get the flying geese.

**This flying geese technique is shown in its entirety in Kaye's book, *Strip Cut Quilts*, available from [www.kayewood.com](http://www.kayewood.com).**
